

62.71
To Our Grower Friends:

January 1, 1955

This season, instead of sending out two growers' lists, one of primrose seed in January, and the other of pansy seed in late Spring, we are combining the two lists into one catalog, of both primroses and pansies, which will be mailed to you in May. Meantime, for the convenience of growers who are accustomed to ordering their primrose seed earlier, we have prepared the following summary, with order blank attached. If you wish the combined catalog now, a postal will bring it to you. We especially recommend our Pastel Polyanthus primrose and our Blue Polyanthus primrose, which were exceptionally fine this year.

Yours truly,
THE CLARKES
